RoHS Statement

European Union has adopted Directive 2002/95/EC: Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment (RoHS) – which will restrict the use of the following substances: lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls, and polybrominated diphenyl ethers in electrical and electronic products by July 2006.

ZCOVER INC is actively implementing a program to bring those products requiring it, into compliance with the European Union's directive and is committed to working closely with our customers to supply products which meet their specific needs while complying with RoHS legislation.

ZCOVER INC has reviewed all raw materials used in the manufacturing of our products. After review, ZCOVER Products declare that to the best of our knowledge none of the following substances are used or intentionally added in the manufacturing of our parts: PBB's, PPBE's, PBD's or PBDE's Brominated Dioxins, Brominated Furans, PVC, Chlorinated Parafins, Antimony Compounds, Cadmium, Hexavalent Chromium, Lead, Mercury and their compounds.

In addition, ZCOVER INC has been working with our material supply chain partners and others in the industry, including packaging and component suppliers, to ensure every aspect of our business accommodates these new requirements. Our purchasing department is actively seeking out and confirming RoHS compliant parts and our production department is setting-up changes that will result in meeting the Directive.

ZCOVER INC will work with all customers of existing products to ensure that we provide a RoHS solution for them, if you have questions on the Directive and its impact on your products, please feel free to contact us for more information.

Sincerely Yours,

Derek Du
