FOR IMMEDIATE RELEASE

zCover announces the Ruggedized Healthcare Grade Silicone Case for the Intermec CN50 mobile computer numeric keypad version

RICHMOND, BC, CANADA – Jan 26, 2010

zCover is now shipping the [CN50 Ruggedized Healthcare Grade Silicone Case for the Intermec CN50 mobile computer](#). The Ruggedized Silicone Case offers better protection and keeps the CN50 secure, guarding it from damage due to impact, dirt, dust and demanding environments. It provides hands-free, portability and is designed for use in industrial settings, fleet or fieldwork and healthcare facilities.

The CN50 silicone case has a comfort grip, form-fitting, contour design with reinforced silicone edges and fits Intermec CN50 mobile computer Numeric keypad version. It features an ultra-thin, transparent navigation panel and keypad protector that accommodates numeric keypad configurations and protects buttons from germs and wet weather conditions.

The side buttons are covered with a soft-touch layer of silicone and are comfortable to use. The functional case design also includes open, accessible scanner, stylus, Camera lens opening and openings for the microphone, headphone, hand strap and LEDs.

zCover's silicone cases are proven to reduce bacteria on shared handhelds used by health care staff in hospitals and clinics. Recent studies have shown that a high percentage of handhelds used by health care workers in hospitals are contaminated by a number of dangerous bacteria and pathogens. zCover silicone cases protect shared handhelds and can be hand washed with soap, detergent, or disinfected by using germicidal wipes, alcohol, microwave and autoclave.

The CN50 Ruggedized Healthcare Grade Silicone Case includes a belt clip pack. It comes with a removable, rotating Universal Belt Clip, so the Intermec CN50 can be worn in a convenient, upright direction while attached to belt. The Belt Clip has high clamping power and a hook on the bottom that prevents it from being pulled off the belt loop accidentally, ensuring the CN50 stays securely attached.

The Belt Clip Pack is also compatible with zCover's Adjustable Shoulder Strap, offering another convenient way to carry and wear the CN50 hands-free, perfect for healthcare and other professionals who wear uniforms that do not have a belt. The Shoulder Strap is fully adjustable so one-size fits all and it features a small, strong clip that attaches to clothing, keeping device secure, close to the body and preventing it from swinging into objects.

Ruggedized Healthcare Grade Silicone Case for the Intermec CN50 mobile computer comes with two Series:

CN50AH is classic mono-color style, which is made from transparent silicone; CN50AH has seven colors to meet your requirement. SRP@\$49.99USD.

CN50BH is due-tone style, which has no transparent silicone body and integrated ice clear transparent keypad; CN50BH comes with Black, Grey, White and Pink body color you can choice. SRP@\$59.99USD.

zCover Ruggedized Silicone Case products, Shoulder Strap and additional accessories can be purchased online at www.zcover.com.
