FOR IMMEDIATE RELEASE

zCover® Announces The New gloveOne™ Ruggedized Silicone Protective Cases for Polycom® KIRK DECT 5040/5020/4040/4020 Wireless IP Phones

RICHMOND, BC, CANADA – May 22, 2009

zCover® is now shipping the **new gloveOne™ SK420H and SK520H Ruggedized Silicone Cases** for KIRK DECT 5040/5020/4040/4020 Wireless IP Phones from Polycom®. The gloveOne Silicone Cases offer maximum protection for the KIRK DECT IP Phones and are made with durable, HealthCare grade silicone rubber. The gloveOne features an integrated keypad protector and reinforced edge-protection with an extra, silicone layer that acts as a crash cushion. The **open back design** makes it easy to change the battery and the phone can be placed in a charger dock with the gloveOne case on. The keypad, push-to-talk button, navigation keys and volume control buttons are all protected to keep dust, dirt and liquids out. Both the ear speaker port and microphone speaker have pre-molded, beveled edges for better sound and voice effect. The **ice color series** makes it easy to see keypads and controls and a wide range of colors are available.

The gloveOne is **recommended for protecting shared handsets** used by health care staff in hospitals and clinics. Recent studies have shown that a high percentage of cell phones used by health care workers in hospitals are contaminated by a number of dangerous bacteria and pathogens. The **gloveOne Silicone Case** protects shared cell phones and can be washed by machine, by hand with soap and water or disinfected using germicidal wipes commonly used in hospitals. The gloveOne Ruggedized Silicone Case comes with a **17 inch Tech Lanyard** and can be purchased online at **www.zcover.com**.
